Benning this year promises to be the most successful in the history of the club. A meeting of the executive committee was held at Willard's last evening at which President F. M. Draney was present, having just returned from New York. It is probable that 300 horses will here for the meeting, which begins on the 28th of April, and \$21,000 will be given away in the ten days. President Draney thinks that the defeat of the pool-racing bills in the New Jersey legislature will have the effect of break-ing up all or nearly all the tracks in that state. Even Monmouth is likely to close. As a natu-ral result the horsemen look to Washington, which fact makes the local prospect particu-larly bright. Interesting Meeting of Lincoln Post, G. A. R.

Last evening was an interesting time for Lincoln Post, No. 3, G. A. R., at the hall 7th and L. streets. There was present a large attendance of the Grand Army and the Woman's Relief Corps. Mrs. McCabe of the latter presided and | opened the meeting, Major L. P. Williams, commander of the post, being seated at her left. After a short introductory address a service of song took place. Department Commander James P. Pipes and staff, escorted by the Oid Guard, Capt. Edgar, were welcomed and the platform was occupied by the department officers and commanders of other posts.

Mrs. McCabe, on behalf of the relief corps, pre-Mrs. McCabe, on behalf of the relief corps, pre-sented the post-with a handsome national flag, making an exceedingly well-timed address. This was received in a neat speech by Maj. Williams, who spoke earnestly of the patriotic devotion of women during the war. The audi-ence then joined in singing the "Star Spangled Banner." Department Commander Pipes fol-lowed in an address and at its conclusion Mrs. McCabe presented him with a corner seed McCabe presented him with an orange wood cane and Mrs. Hendricks, department president of the W. CIVILIZING THE INDIANS. Gen. Morgan's Suggestions for the Antion of Their Condition,

Gen. T. J. Morgan, commissioner of Indian affairs, delivered a lecture before the Baptist ministers' conference in Philadelphia Monday morning on the Indian problem. He said Temperature and condition of water at 7 a.m.—Great Falls, temperature, 50; condition.

General house, 5; condition at effinent gate house. 5. diture of money and national honor. General High tide in the river, 8:12 p.m. Low tide in Morgan suggests among the elements that should enter into the government policy the

First. Comprehensiveness. In dealing with the Indians it is important to consider all the facts; thoroughly comprehend their situation. The Indians, while alike in their relations to the government, differ widely among themselves in language, manner and customs and in the various stages of their civilization, and any theory of treatment which ignores these sets must of necessity be wrong.
Second. Definiteness of aim. If it is the pur-

pose of the government to exterminate the indians they, with all the people, should know it. If the purpose is to guard them as prisoners, feeding and supporting them in idleness without regard to their future, then that should be stated. If, however, it be the pur-pose to incorporate these people into the national life as citizens, then this should be stated; unless there is held clearly before the mind the ultimate end aimed at there can mind the ultimate end aimed at there can be no wise adaptation of means and no proper marshaling of forces toward the develop-ment of civilization among these rade and barbarous people. A failure to comprehend these features leads to grave errors of judg-ment and results in laying blane where it does not belong. Humanity prompts us that by reason of the wrongs which the In-dians have suffered by the inflowing tide of immigration, which has driven them step by step from their old homes, reduced them to dire necessities, to be magnanimous and not tite, aids digestion and tones up the system generally. Charles Krazher, 737 7th st. n.w. dire necessities, to be magnanimous and not cruel. For the sake of the history we are making as a Christian nation we should treat them with as much kindness and generosity as is con-sistent with their highest welfare.

Having determined upon a scheme for deal-ing with this matter we should regard it as fixed and sacred. Bring the Indians into right relationship with the age, put tools in their hand by which they may gain for themselves food and clothing and build for themselves homes. They should be fostered, strengthened, maintained and allowed to work. Time will do the

The arrest was made at the corner of Pennsylvapia avenue and 15th street and soon attracted quite a large crowd. The officer had a firm, grasp on the coliar of his prisoner and would not let him go. There the two stood waiting for a patrol wagon, the prisoner placidly lighting one cigarette from the stump of another and inhaling clouds of the smoke with great gusto, apparently as calm and uninterested as any one in the crowd.

As the patrol wagon failed to put in an appearance and the situation becoming embarrassing a cab was called and the two entered and were driven to the third precinct, where Gittings was put under lock and key.

MASTERS OF THEIR ART. Death in Paris of the Two Wost Farm

Caterers of Modern Times. A cable special to the STAR says: The night of the 23d of March will long be memorable in the astronomic annals of the French capital and of the world. On that night died two of the most famous caterers of modern times-M. Verdier. founder of the famous Maison Doree and M Potel of the firm of Potel and Charbot. M. Potel began life as the keeper of a cook shop in the Rue Montmartre. It was he who first introduced the practice of sending ban-

quets into the provinces, and who during the furnished that official with all the dinners he ate outside of Paris. M. Potel became associated in partnership with M. Charbot, who was cook to Louis Philippe, but who left the monarch's service for the grave reason that he was not allowed to use refined hog lard instead of "drippings" in preparing his dishes. The firm were most prosperous under the empire, the emperor, besides being at all times a generous patron, having commissioned them to sup-ply all repasts when Queen Victoria was in Paris in 1855.

The most gigantic banquet ever turned out by the house was in 1889, when it was ordered to provide dinners for 16,000 provincial "maires," a far less important and far more numerous class of officials than the English or American "mayor," at the Palais de l'Industre, in the Champs Elysees. On this occasior 4,000 quarts of bouillon, 2,000 fowls, 6,000 pounds of roast beef, 2,500 pounds of pate de foie gras, 9,000 pounds of cold vegetables for Russian salad and 20,000 cups of tea and coffee were The reputation of M. Verdier rests on quite other achievements. His fame was acquired

by giving the most minute attention to a deliate and refined cuisine. He began with his brothers in or near the Hales Centrales or Pari markets, where his father carried on the trade of "rotisseur" or vender of roast meats. On acquiring wealth the trio built the Maison Doree, and counted among their customers the Duke of Hamilton, the King of the Netherlands, the Marquis of Hertford, the Duke of Brunswick, the most of the Russian grand dukes, the czar and the Prince of Wales. One of the brothers subsequently went to California, where he opened a restaurant and started a hotel and a bank, in all of which undertakings

AND ALL METHODS AND REMEDIES FAIL TO CURE A BRUISED LEG. CUTICURA SUCCEEDS.

Having been a sufferer for two years and a half from disease caused by a bruise on the log, and having seen cured by the CUTICURA REMEDIES when all other methods and remedies failed. I deem it my duty to recommend them. I visited Hot Sprines to no avail, and tried several doctors without success, and at last our principal druggist, Mr. John P. Finlay (to whom I shall ever feel grateful), spoke to me about CUTI-CURA REMEDIES, and I consented to give them a trial, with the result that I am perfectly cured. There is now no sore about me. I think I can show the largest urface where my sufferings sprang from of any one in he state. The CUTICURA REMEDIES are the best blood and skin cures manufactured. I refer to Drug-gist John P. Finlay and Dr. D. C. Montgomery, both of this place, and to Dr. Smith, of Lake Lee, Miss.
ALEXANDER BEACH, Greenville, Miss.
Mr. Beach used the CUTICURA REMEDIES, at our request, with results as above stated.

A. B. FINLAY & CO., Druggists.

LIFE-LONG SUFFERING I have suffered all my life with skin diseases of differ

ent kinds, and have never found permanent relief, until, by the advice of a lady friend, I used your valuable CUTICURA REMEDIES. I gave them a thorough trial, using six bottles of the CUTICURA RESOLVENT, two boxes of CUTICURA and seven cakes of CUTICURA SOAP, and the result was just what I had been to the cutiful to the country of the cutiful transfer. what I had been told it would be—a complete cure.

BELLE WADE, Richmond, Va.

Reference, G. W. Latimer, Druggist, Richmond, Va. CUTICURA RESOLVENT. The new blood purifier, internally (to cleanse the blood quets into the provinces, and who during the visit of President Carnot to Corsica last year and CUTICURA, the great skin cure, and CUTICURA SOAP, an exquisite skin purifier and beautifier, externally (to clear the skin and scalp and restore the hair), cure every disease and humor of the skin scalp and blood, from infancy to age, from pimples to scrofula.

other forms of disease cured.

Drs. French, the Human Magnets.
For thirteen weeks the Drs. French have been in Washington, at 1325 F street, and have enrolled the great number of 675 patients for magnetic treatment. Of that immense number fully two-thirds are pronounced perfectly and permanently cured, many of whom had baffled the skill of specialists in this and other cities. All classes and nationalities are represented, and no one has gone forth from their office unless well or convalescent. All kinds of diseases, too, are treated by them—Epilepsy, that fearful malady, is controlled and cured; Scrofula, Spinal and nervous diseases, Cystitis, Lumbago and Cancer nervous diseases, Cystitis, Lumbago and Cancer are not only cured by them, but persons may converse any day with others while waiting who consider themselves cured. The most painful cases of piles are cured every day by them. A lady who had been a great sufferer with piles says "she has not missed a day from the Department during treatment." His cures are not made hundreds of miles from Washington, but are right here among 18. By permission they refer to Mr. Halliday, 221 12th st. Mrs. A. B. Collins (goitre), Thon as J. Rossiter, Mrs. M. Noyes, Mrs. Rabe, 326 8th st.; Mrs. Widdicome, 318 Ind. ave.; L. M. Bowen, Miss M. Townseud. Dyspepsia—Mr. L. S. Lodge, Montgomery co., JIS Ind. ave.; L. M. Bowen, Miss M. Townseud. Dyspepsia—Mr. L. S. Lodge, Montgomery co., Md. Rheumatism—Mr. Stubblefield and Mrs. J. L. Cutter. Reference to persons so well and favorably known is a guarantee that no other physician can give and should forever silence any prejudice against the wonderful results of magnetism as applied by Dr. French. Many of the most stubborn cases are cured in a short time by a few magnetic treatments, but in no case will they take a person for treatment uncase will they take a person for treatment un-less they are positive that a cure can be made in the short time remaining for their first visit to Wasnington. Dr. French does not claim to be infallible, but he has a knowledge of his business and knows, too, the natural magnetic power he possesses. The afflicted who have tried all sorts of doctoring and given up in de-spair should go to 1325 F st. and consult the doctors. Judge for yourself, but do not suffer and die with prejudice. Consultation free. 1t
